Explanatory notes

General

- Always use the original form.
- Keep a copy of this form, authenticated by the competent authority, for your own records. The Inspectorate of Education will check the pupil count on the basis of the details on this form.

At 1 Number of pupils

Enter all pupils who were registered at the school on the count date (1 October) and who, from the beginning of the school year to the count date, were not absent without a valid reason for more than half the number of school days. Valid reasons include illness (including long-term illness), suspension as a disciplinary measure, or holiday outside the standard holiday period due to the occupation of the child's parent(s).

Denomination school types

Register the number of pupils by school type, gender and school year. In the table the denomination of the school types in Caribbean Netherlands is used.

In the leaflet *Pupil count for funding purposes – 1 October 2021* a table is added, which clearly shows the denominations in Caribbean Netherlands.

At 2a and 2b Specification of student numbers for policy information

Policy information requires further specification of the student numbers CVQ1 and CVQ2. Question 2a concerns the total number of CVQ1 and CVQ2 students who are of compulsory school age/students required to complete a qualification, for each study programme followed. Question 2b concerns the total number of CVQ1 and CVQ2 students who are not required to complete a qualification for each study programme followed. Students who are not required to complete a qualification are (often adult) students who are not completing a CVQ from the lower years. These students are enrolled in years 4 and 5, although they are actually students who have not (recently) taken years 1 to 3 and are only following a one or two-year CVQ programme.

The nominal duration of the CVQ training is 5 years, including the 3 lower years. Also indicate how many students are doing an extra year (and are therefore actually in their 6th year) because they are completing an in-depth programme by also taking a CSEC subject, for example. These students were counted in year 5 in question 1.

Enter the number of students for each type of education and for each year of study in the table. Indicate the sex of the students (M = male, F = female). The figures you enter for question 2a and question 2b together must be equal to the figure you entered in question 1.

At 4 Signature principal

The principal of the school must sign the form. The date of signature must be on or after the count date (1 October); the number of pupils cannot be ascertained before the count date.
